GANDHI JAYANTI

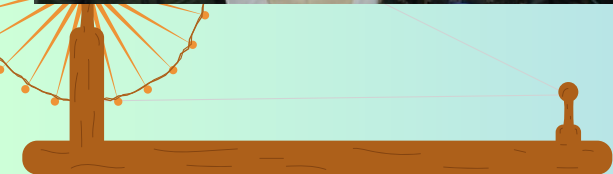

To honour Mahatma Gandhi, the children participated in a peaceful Prabhat Pheri. Walking together while singing patriotic songs helped them connect with Gandhiji's message of peace, truth, and simplicity. It was a moment of unity as they learnt why the Father of the Nation is remembered for his humble lifestyle and strong principles. They learnt discipline, unity, love for the nation, and Gandhi's core values

GREEN GROCER DAY

The school came alive with excitement as we celebrated Green Grocer's Day, transforming the classroom into a vibrant and cheerful toy market. Children brought a variety of toy fruits and vegetables from home and eagerly participated as little grocers, adding joy and energy to the celebration.

This lively event provided meaningful hands-on experience as children engaged in pretend play, explored buying and selling, and interacted confidently with their peers. Through this activity, they developed communication skills, social interaction, early money concepts, sorting and organizing skills, along with a better understanding of healthy fruits and vegetables.

GOOD TOUCH BAD TOUCH

A large, bold red 'X' is positioned in the top left corner of the page.

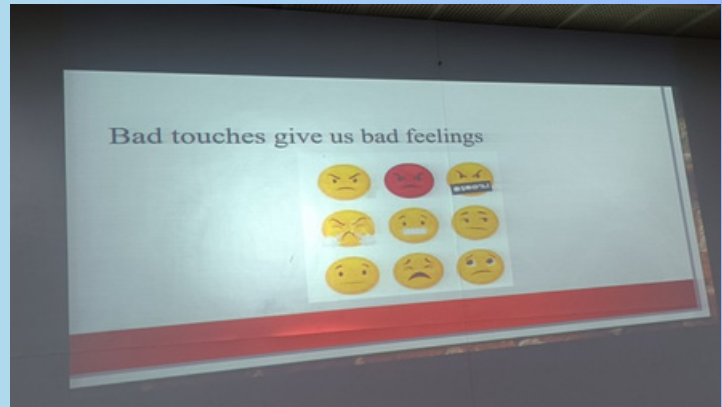

On 7th November, 2025, a Good Touch Bad Touch session was conducted using a play-way approach, focusing strongly on helping children develop self-awareness and the ability to identify safe and unsafe touches. Through engaging stories, puppets, and simple interactive activities, children learnt to recognize how different touches make them feel and understand when something is not right. The session encouraged them to trust their feelings, say “No,” move away, and inform a trusted adult. The playful method made these important concepts clear, comforting, and easy for children to remember.

WORLD MILK DAY

To celebrate National Milk Day, children learnt about the importance of milk and why it is considered a complete food. Teachers demonstrated how pasteurization works through video, helping students understand how milk is made safe and healthy for drinking.

The video demonstration sparked curiosity and taught children about hygiene, nutrition, and the journey of milk before it reaches our homes.
